17-John W Forney, the fellow that acted as pimp for Forest to get testimony from a drunken actor against his wife, is one of the editors of the Washington Union. It is no wonder that its columns are filled with abuse of Gen. Scott.—Indiana Journal.

False again. Colonel Forney is Clerk of the House of Representatives. He has no connection whatever with the Union. This was stated some time since by Gen. Armstrong, the proprietor of that paper.

The Methodist Church Case.—It was decided, by the United States Circuit Court, in November last, that the Church South was equally entitled with the Church North, to the property owned by them, as a united establishment, previous to their separation. John W. Nelson, Esq., who was appointed commissioner to ascertain and adjust the account between them, has just reported that the amount of property, previous to the separation, was \$562,235 764. The profits since that period, 1845, have been over \$250,000. The Southern members have received no share of the profits since the separation, as the Northern members who were in possession, claimed the whole fund and profits. The South have now taken exceptions to the report, and the litigation is not yet ended.—Phil. Ledger.

THE ENGLISH LANGUAGE.—According to recent cal-culations it is probable that English is already the lan-guage of sixty millions of human beings, and that the number is augmenting at a continually increasing ratio.
